### Shed Jobs

There are still jobs to be done to finish off the interior fit-out. Help would be appreciated to get these done.

- \* Complete the sliding panels for the tool rack.
- \* Finish the landscaping at the front of the shed.

### New Engineering Lathe

The Colchester engineering lathe arrived this week and is set up in the metal working area. The 3-phase plug needs changing - help with this is needed. Below, Secretary John Murray inspects the new equipment.

### Boys Night Out at Bunnings

Shed members attended a demonstration evening at Bunnings and promoted the Shed at the same time.

Trustee Ian Devonshire won third prize- well done!

### Concreting Done

Now that the entrance-way to the workshop doors has been concreted we are able to have proper access with trucks & trailers into the shed.

### Ryobi Demonstration

Barry Adams from Ryobi came into the Shed for a couple of hours to demonstrate and discuss the range of Ryobi power tools. Over 20 members attended. Below: Len looks on.

### Shed Video Online

The promotional video about the Shed made by AUT students is now online:  
<http://www.youtube.com/watch?v=tTGZuCWu7FA>

### Community Projects

#### **Bicycle repairs:**

Shed members have been repairing bicycles for Onepoto School. Below: Maris, Gavin and Roger.

### A Welcome Donation

Since the recent close of the Glenfield Wipe-Out Trust all the assets were sold and the funds distributed to other community organisations. The Men's Shed North Shore received a donation of a large first aid kit and a defibrillator including a training package.

Below: Ann Bell presents Chairman Ross McEwan with these items.

### Bi-Plane Xmas Float:

Gwynn, Trustee John and Brian Beales look at Brian's plans for the plane. The fuselage is visible in the foreground.

### Bookings for Shed Space

As we only have limited space, members are advised to book a specified time for large projects. Boatbuilding will occupy the open area till Xmas. See Workshop Manager Gavin to make arrangements. Two months is the maximum time, and we will have to be strict about time-frames.

Members please note - we have a variety of on-going community projects and anyone is welcome to come in and give a hand - special skills may not be necessary. You don't have to have a project of your own, so come along and join in.
