Sheddies' Chatter

Opening Hours Increase

In an attempt to complete our goal to have the internal fit out complete this year we have decided to increase the opening hours for the Month of November to:

Monday, Wednesday and Friday
9:00am to 4:00pm

This will give those that would like to give us a hand more opportunities to come on in, we would love to see you.

Christmas Break

The Shed will close for the Christmas period on Friday 30th November and reopen on Monday 21st January 2013

Vacancy filled

We would like to welcome our new trustee to the Board. Gavin Marks who has spent many hours at the shed during the internal fit out has agreed to fill the vacancy we had on the Board. His portfolio includes the position of Workshop Supervisor and Gavin is looking forward to the challenges next year as he organizes the layout of the workshop.

Great leaps ahead this month with the Insulation completed including the foil in the roof area providing a reflective white finish and increasing light levels. This was quite a major job as the purlins had to be extended down 60mm to accommodate the insulation and give the required 25mm air gap between the roof and insulation. The team of keen members worked extremely hard to complete this and were quite happy to have contractors come in to install the ecowool fiber-glass insulation. Workshop walls have been painted (three coats) the lighting equipment installed and electrical power outlets wired. A start in the kitchen/dining area with Gib board being installed and also the ceiling in the toilet area has made a huge difference with the look of the shed. The big push now is to finish the Gib Board and get that painted then install all the electrical fittings, fit out the kitchen and toilets, and the question is *"can we achieve this by the end of November?"* Yes of course, with your help, don't be shy come on in and be part of the team that is helping to make this project a success.

YOUNG CHAPS SCHOOL PROJECT

A gentleman came into the shed with a request for help. His son had a school project that he was finding difficult to complete during the Term break and was wondering if one of our members could help. It wasn't long before John put his hand up and offered to have the boy come to his workshop (as The Shed was not quite ready for that type of activity). School holiday came to an end and we had a teenager ready to commence the new term with his project completed. Our sincere thanks go to John for the time he put into this young chaps project.

Newsletter/Website help

Help with newsletter/website We are looking for someone with computer skills to help with the newsletter publication and website management. If you are able to help give Ross a call on 09 959 0185.
